Re: Job listing - Dacor hiring for new Regional Technical Manager

REGIONAL TECHNICAL MANAGER (APPLIANCES)

Dacor, a leading high-end manufacturer of luxury kitchen appliances, headquartered in California, is seeking a Regional Technical Manager based in Texas (preferably Dallas, Houston or Austin). The selected candidate must have excellent communication and computer skills, a minimum of 10 years of Appliance Industry repair and related business management experience. A valid driver's license with a clear driving record and auto insurance is mandatory. Overnight travel of 2-3 days per week, usually 3 weeks per month is required.

Major responsibilities will include:

- On site visits and management of Authorized Service Agents
- Provide hands-on training to Authorized Dealers and Service Agents
- Provide technical and management assistance to all Dacor authorized/non-authorized service agents, customer service and technical advisors.
- Ability to quickly and efficiently diagnose root cause problems and provide solutions with both gas and electric appliances and be CFC certified.

Please email cover letter, resume, references and salary requirements to:

Rob Marriott
National Technical Manager, Dacor
